## CHAPTER 1: INTRODUCTION AND OBJECTIVES

1.1	Overview. ....	1
1.2	Objectives of the HICE Survey. ....	3
1.3	Training and Field Organization. ....	4
	.	
1.3.1	Training of Field Staff. ....	4
1.3.2	Field Organization . ....	5
1.4.	Explanatory Note. ....	5
1.4.1	Acronyms . ....	5
	.	
1.4.2	Table Leveling . ....	6
1.4.2.1	For Volume II Statistical Reports. ....	6
1.4.2.2	For Detail Statistical Reports. ....	7

## CHAPTER 2: SURVEY METHODOLOGY AND PROCESSING

2.1	Coverage . ....	11
2.2	Concepts and Definitions. ....	11
2.3	Sample Frame . ....	15
2.4	Sample Design . ....	16
2.5	Sample Size and Selection Scheme . ....	17
2.6	Data Collection . ....	18
2.7	Field Supervision. ....	21
2.8.	Data Processing . ....	21
2.8.1	Data Editing, Coding Capturing . ....	22
2.8.2	Data Validation and Cleaning . ....	22

## REGIONAL STATE TABLES

page

### TIGRAY, NATIONAL REGIONAL STATE TABLES

Table 1.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Tigray, Total . . . . .	99
Table 1.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Tigray, Total . . . . .	100
Table 1.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Tigray, Total. . . . .	101
Table 1.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Tigray, Total . . . . .	103
Table 1.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Tigray, Total . . . . .	105
Table 1.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Tigray, Total . . . . .	107
Table 1.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Tigray, Total . . . . .	108
Table 1.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Tigray, Total . . . . .	109
Table 1.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Tigray, Total. . . . .	110
Table 1.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Tigray, Total. . . . .	111
Table 1.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Tigray, Total. . . . .	113
Table 1.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- Tigray, Total. . . . .	115

Table 1.13:	Employed Persons by Sex, Employment Status and HH Expenditure Quintiles - Tigray, Total . . . . .	117
Table 1.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Tigray, Total . . . . .	119
Table 1.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Tigray, Total . . . . .	121

**AFAR, NATIONAL REGIONAL STATE TABLES**

Table 2.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Afar, Total . . . . .	124
Table 2.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Afar, Total . . . . .	125
Table 2.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Afar, Total. . . . .	126
Table 2.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Afar, Total . . . . .	128
Table 2.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Afar, Total . . . . .	130
Table 2.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Afar, Total . . . . .	132
Table 2.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Afar, Total . . . . .	133
Table 2.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Afar, Total . . . . .	134
Table 2.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Afar, Total. . . . .	135
Table 2.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Afar, Total. . . . .	136
Table 2.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Afar, Total. . . . .	138
Table 2.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- Afar, Total. . . . .	140
Table 2.13:	Employed Persons by Sex, Employment Status and HH Expenditure Quintiles - Afar, Total . . . . .	142

Table 2.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Afar, Total . . . . .	144
Table 2.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Afar, Total . . . . .	146

## AMHARA, NATIONAL REGIONAL STATE TABLES

Table 3.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Amhara, Total . . . . .	149
Table 3.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Amhara, Total . . . . .	150
Table 3.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Amhara, Total. . . . .	151
Table 3.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Amhara, Total . . . . .	153
Table 3.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Amhara, Total . . . . .	155
Table 3.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Amhara, Total . . . . .	157
Table 3.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Amhara, Total . . . . .	158
Table 3.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Amhara, Total . . . . .	159
Table 3.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Amhara, Total. . . . .	160
Table 3.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Amhara, Total. . . . .	161
Table 3.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Amhara, Total. . . . .	163
Table 3.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- Amhara, Total. . . . .	165
Table 3.13:	Employed Persons by Sex, Employment Status and HH	

	Expenditure Quintiles - Amhara, Total . . . . .	167
Table 3.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Amhara, Total . . . . .	169
Table 3.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Amhara, Total . . . . .	171

## **OROMIYA, NATIONAL REGIONAL STATE TABLES**

Table 4.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Oromiya, Total . . . . .	174
Table 4.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Oromiya, Total . . . . .	175
Table 4.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Oromiya, Total. . . . .	176
Table 4.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Oromiya, Total . . . . .	178
Table 4.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Oromiya, Total . . . . .	180
Table 4.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Oromiya, Total . . . . .	182
Table 4.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Oromiya, Total . . . . .	183
Table 4.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Oromiya, Total . . . . .	184
Table 4.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Oromiya, Total. . . . .	185
Table 4.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Oromiya, Total. . . . .	186
Table 4.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Oromiya, Total. . . . .	188
Table 4.12:	Employed HH Heads by Sex, Employment Status and HH	

	Expenditure Quintiles- Oromiya, Total . . . . .	190
Table 4.13:	Employed Persons by Sex, Employment Status and HH Expenditure Quintiles - Oromiya, Total . . . . .	192
Table 4.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Oromiya, Total . . . . .	194
Table 4.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Oromiya, Total . . . . .	197

## SOMALI, NATIONAL REGIONAL STATE TABLES

Table 5.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Somali, Total . . . . .	199
Table 5.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Somali, Total . . . . .	200
Table 5.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Somali, Total. . . . .	201
Table 5.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Somali, Total . . . . .	203
Table 5.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Somali, Total . . . . .	205
Table 5.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Somali, Total . . . . .	207
Table 5.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Somali, Total . . . . .	208
Table 5.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Somali, Total . . . . .	209
Table 5.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Somali, Total. . . . .	210
Table 5.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Somali, Total. . . . .	211
Table 5.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Somali, Total. . . . .	213
Table 5.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- Somali, Total. . . . .	215
Table 5.13:	Employed Persons by Sex, Employment Status and HH Expenditure Quintiles - Somali, Total . . . . .	217

Table 5.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Somali, Total . . . . .	219
Table 5.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Somali, Total . . . . .	221

## BENSHANGUL-GUMUZ, NATIONAL REGIONAL STATE TABLES

Table 6.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Benshangul-Gumuz, Total . . . . .	224
Table 6.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Benshangul-Gumuz, Total . . . . .	225
Table 6.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Benshangul-Gumuz, Total. . . . .	226
Table 6.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Benshangul-Gumuz, Total . . . . .	228
Table 6.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Benshangul-Gumuz, Total . . . . .	230
Table 6.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Benshangul-Gumuz, Total . . . . .	232
Table 6.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Benshangul-Gumuz, Total . . . . .	233
Table 6.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Benshangul-Gumuz, Total .	234
Table 6.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Benshangul-Gumuz, Total. . . .	235
Table 6.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Benshangul-Gumuz, Total. . . . .	236
Table 6.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Benshangul-Gumuz, Total. . . . .	238
Table 6.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- Benshangul-Gumuz, Total. . . . .	240

Table 6.13:	Employed Persons by Sex, Employment Status and HH Expenditure Quintiles - Benshangul-Gumuz, Total . . . . .	242
Table 6.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Benshangul-Gumuz, Total . . . . .	244
Table 6.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Benshangul-Gumuz, Total . . . . .	246

## SNNP, NATIONAL REGIONAL STATE TABLES

Table 7.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - SNNP, Total . . . . .	249
Table 7.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - SNNP, Total . . . . .	250
Table 7.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - SNNP, Total . . . . .	251
Table 7.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- SNNP, Total . . . . .	253
Table 7.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- SNNP, Total . . . . .	255
Table 7.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- SNNP, Total . . . . .	257
Table 7.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- SNNP, Total . . . . .	258
Table 7.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - SNNP, Total . . . . .	259
Table 7.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - SNNP, Total. . . . .	260
Table 7.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - SNNP, Total. . . . .	261
Table 7.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - SNNP, Total. . . . .	263
Table 7.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- SNNP, Total. . . . .	265

Table 7.13:	Employed Persons by Sex, Employment Status and HH Expenditure Quintiles - SNNP, Total . . . . .	267
Table 7.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - SNNP, Total . . . . .	269
Table 7.15:	Employed person by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - SNNP, Total . . . . .	271

## HARARI, NATIONAL REGIONAL STATE TABLES

Table 13.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Harari, Total . . . . .	274
Table 13.2.	Population Estimates by HH Size, Sex and HH Expenditure Quintiles - Harari, Total . . . . .	275
Table 13.3:	Population Estimates by Age Group, Sex and HH Expenditure Quintiles - Harari, Total. . . . .	276
Table 13.4:	Population Estimates by Sex, HH Expenditure Quintiles and Relationship to HH Head- Harari, Total . . . . .	278
Table 13.5	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Harari, Total . . . . .	280
Table 13.6:	Income Contributed HH Members Within Last Six Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles- Harari, Total . . . . .	282
Table 13.7.:	Literacy Status of Persons Age 10 Years and Above by Sex and HH Expenditure Quintiles- Harari, Total . . . . .	283
Table 13.8:	Educational Level of HH Heads (Highest Grade Completed) by Sex and HH Expenditure Quintiles - Harari, Total . . . . .	284
Table 13.9:	Educational Level of Persons Aged 10 Years and above by Sex and HH Expenditure Quintiles - Harari, Total. . . . .	285
Table 13.10:	HH Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Harari, Total. . . . .	286
Table 13.11:	Persons Aged 10 Years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, HH Size and HH Expenditure Quintiles - Harari, Total. . . . .	288
Table 13.12:	Employed HH Heads by Sex, Employment Status and HH Expenditure Quintiles- Harari, Total. . . . .	290
Table 13.13:	Employed Persons by Sex, Employment Status and HH	

	Expenditure Quintiles - Harari, Total . . . . .	292
Table 13.14:	Employed HH Heads by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Harari, Total . . . . .	294
Table 13.15:	Employed Persons by Sex, Type of Economic Activity (Industry) and HH Expenditure Quintiles - Harari, Total . . . . .	296

## **ADDIS ABABA, PROVISIONAL ADMINISTRATION TABLES**

Table 14.1.:	HH Estimates by HH Size, sex of HH Head and HH Expenditure Quintiles - Addis Ababa, Total . . . . .	299

# CHAPTER 1

## INTRODUCTION AND OBJECTIVES

### 1.1 Overview

The level and distribution of poverty in Ethiopia is extensive. According to the results obtained from the 1995/96 and the 1999/2000 Household Income, Consumption and Expenditure (HICE) surveys and Welfare Monitoring (WM) survey of the Central Statistical Agency (CSA), about 44 percent of the total population (45 percent in rural and 37 percent in urban areas) are found to be below poverty line. The country together with development partners, as a result, has put poverty reduction strategies high on the agenda and working firmly on the implementation program since the beginning of this decade. With firm dedication to reduce poverty, the government has prepared its poverty reduction program entitled “Sustainable Development and Poverty Reduction Program” (SDPRP) in 2002. The strategy has been implemented over the past five years. Furthermore, the government has prepared and implementing the poverty eradication action plan entitled "A Plan for Accelerated and Sustained Development to End Poverty (PASDEP)".

In light of the plan to reduce poverty over time, a strong system of monitoring and evaluation has been put in place. Consequently, the issue of welfare monitoring in the country arose as part of the Economic Reform Program (ERP). The ERP specifically and strongly, underlies to see the effects of the reform program on poverty and building the analytical capacity of the government to monitor and evaluate such effects. To this end, the government has established a Welfare Monitoring System (WMS) in 1996 to oversight the following major activities:

- Establish an information system that provides a continuous picture of the poverty scenario in the country;
- Indicate the impact of reform programs on the level of household welfare;
- Establish follow-up procedures on the various programs and activities targeted towards poverty reduction; and

- Conduct regular statistical surveys to assess, in particular, the efficiency of targeted programs.

The CSA and Welfare Monitoring Unit (WMU) of Ministry of Finance and Economic Development (MoFED) has been the key actors in the Monitoring and Evaluation (M&E) system in place by way of producing, analyzing and disseminating poverty related data and results. The program has been supported by the World Bank IDA Credit and the Norwegian Trust Fund.

In line with strengthening the established M&E system of the government, the CSA and WMU of MoFED had also submitted a financing requirement proposal (entitled: Strengthening Data Collection, Analysis and Dissemination on Poverty Monitoring and the MDGs) to the Development Assistant Group (DAG). Following the signing of the Memorandum of Understanding (MU) between MoFED, CSA and the donors, various implementation activities have also been carried out.

In order to meet the data needs of the WMS, the CSA has been conducting the two surveys that provide poverty related data: the HICE and the WM surveys since 1995/96. The HICE and the WM surveys provide fundamental information for the designing and monitoring and evaluation of the country's poverty reduction strategy i.e., the SDPRP, the various socioeconomic policies and programs and hence monitor the progress towards meeting the Millennium Development Goals (MDGs). The two surveys are inseparable and provide basic data that reflect the standard of living of households, individuals and the society as a whole.

The HICE survey basically reflect the income dimension of poverty while WM survey aims at providing socioeconomic data that reflect the non-income dimension of poverty. The HICE survey provides statistics on income, consumption and expenditure of households and WM survey provides basic indicators on the various socioeconomic areas including health, education, nutrition, access to and utilization and satisfaction of basic facilities/services and related non-income aspects of poverty. The HICE survey has been conducted together with the WM survey every four-five

years since 1995/96. The latest of these HICE surveys is for 2004/5 and covered a representative sample of 21,600 households. Previous HICE were similarly representative, covered 11,928 and 17,332 households for 1995/96 and 1999/00, respectively.

Several reports have been produced based on the previous surveys including the statistical reports produced by the CSA: report on the 1995/96 HICE survey and WM survey, report on the 1999/2000 HICE survey and WM survey, analytical report on the 2004/5 HICE survey summary reports for the 1999/2000 HICE and WM surveys and report, on the 1998 and 2004 WM surveys. Furthermore, two major poverty profile reports were produced by the WMU, the first one in 1999, and the second which underpinned SDPRP I in 2000, based on the 1999/00 HICE and WM survey data sets.

Unlike the previous two HICE surveys that had been conducted in 1995/96 and 1999/00, in the 2004/05 HICE survey data on Household Consumption Expenditure and Household Income were collected independently using separate modules. However, this statistical report concentrates only on the household consumption expenditure part.

This report consists about 15 selected statistical tables at country level (include rural and urban areas) and regional levels. Apart to this report and the analytical report, the one that has been published in May 2007, the Agency would like to inform users that detailed statistical report has been produced and made available in a CD-Rom.

## **1.2 Objectives of the HICE Survey**

The core objective of the HICE survey is to provide data that enable to understand the income aspects of poverty and the major objectives are to:

- assess the level, extent and distribution of income dimension of poverty;
- provide data on the levels, distribution and pattern of household expenditure that will be used for analysis of changes in the households' living standard level over time in various socio-economic groups and geographical areas;

- provide basic data that enables to design, monitor and evaluate the impact of socio- economic policies and programs on households/individuals living standard;
- furnish series of data for assessing poverty situations, in general, and food security, in particular;
- provide data for compiling household accounts in the system of national accounts, especially in the estimation of private consumption expenditure; and
- obtain weights and other useful information for the construction of consumer price indices at various levels and geographical areas,

### **1.3 Training and Field Organization**

#### **1.3.1. Training of Field staff**

Training was held in two stages in both rounds, i.e. in the first and second rounds of the survey period. The first stage was training of trainers and was conducted at the CSA head office. A total of 140 participants including professionals and sub-professionals from the head office, heads of the branch offices and the respective statisticians from each branch office were trained at this stage. The second stage training involved training of about 3970 field staff consisting of 3270 enumerators and about 700 supervisors and was conducted at all branch offices of the CSA.

The training at the head office lasted for about 15 days focusing on theoretical discussions on concepts, definitions, and principles of interview and how to complete questionnaires. The training also had focused in practical sessions which include mock interviews and two-days field practice both in rural and urban areas. The objectives of practical interviewing of households were two fold. First, it enabled to assess how well the theoretical class discussions were understood by all participants so that they could convey the same message to enumerators and supervisors. The second objective was to examine the practical difficulties pertaining to the various socioeconomic groups, which would likely be encountered during the actual fieldwork.

The second stage training was undertaken at the branch offices and took about 22 days. The training was more detailed than the first stage in both theoretical and practical aspects to ensure the full competence of the field staff in collecting the required information. The trainers were professional and sub-professional staffs that were trained at the head office.

### ***1.3.2. Field Organization***

The CSA branch offices led by the Field Operations Department at the Head Office did the major work of the field organization. All the 24 branch offices of the CSA (Excluding Gambela) had fully participated in the survey undertaking, starting from recruitment of field staff, organizing the second stage training, in deploying the field staff to their respective sites of assignment, field supervision and retrieval of the completed questionnaires to the head office where the data processing activities took place. They were also responsible for administering financial and logistics aspects of the survey. Additionally, line government organizations especially Kebele's also had a significant role in facilitating the fieldwork. Writing administrative letters that introduce the work and the enumerators to the local people particularly the sample households, provision of field guides, etc were tasks of the local government units.

## **1.4. Explanatory Note**

### **1.4.1 Acronyms**

Agri.	Agricultural
Non - Agri.	Non - Agricultural
CSA	Central Statistical Agency
DAG	Development Assistance Group
F	Female
M	Male
M+F	Both sexes
HH	Household
HICE	Household Income, Consumption and Expenditure

IDA	International Development Assistance
MDGs	Millennium Development Goals
M&E	Monitoring and Evaluation
MoFED	Ministry of Finance and Economic Development
R	Rural
U	Urban
R+U	Rural and Urban
WM	Welfare Monitoring
WMS	Welfare Monitoring System
WMU	Welfare Monitoring Unit
%	Percent
CV	Coefficient of Variation
CI	Confidence Interval
DE	Design Effect
SE	Standard Error

In addition to the reports produced by the CSA, a separate report will be produced by the MoFED on poverty profile of the country. Although, both reports were prepared using the same data set due to the differences in the analysis approach and the indicators used these reports may not be identical. These two different approaches are: **CSA's** report is based on analysis at current prices of the survey year and uses actual household size. **MoFED's** report is based on 1995/96 constant prices and uses adult equivalent scale for its analysis.

## **1.4.2 Table Leveling**

### **1.4.2.1 For Volume II Statistical Reports**

The format of this volume is arranged in such a way as to facilitate easy identifying and comparability at reporting levels. To achieve this, tabular reports signifying the same title are designated by the same table number but a unique code number is assigned to all of the tables within a reporting level belonging to a region (regional

identification code number). In addition to that, tabular reports signifying the same title are designated by the same table number but subscripted by 1 and 2 for rural and urban level reports, respectively. For instance, the tabular report "HH Estimates by HH size, sex of HH Head and HH Expenditure Quintiles" is designated by the same table number at country level, i.e., Table 0.1. However "Table 0.1" represented Country Total," Table 0.1.1" is for Country Rural and "Table 0.1.2" is for country Urban. Similarly, the tabular report" Population Estimated by HH size, sex and HH Expenditure quintiles" is designated by the same table number (Tab 02) at country level, but "Table 0.2" is for country Total, "Table 0.2.1" is for country Rural and Table 0.2.2" is for country Urban.

The unique identification codes used to identity each region and country level are listed below. Every tabular report of:

- Country level starts with "0"
- Tigray Region starts with "1",
- Afar Region starts with "2",
- Amhara Region starts with "3",
- Oromiya Region starts with "4",
- Somali Region starts with "5",
- Ben-Gumuz Region starts with "6",
- SNNP Region starts with "7"
- Harari Region starts with "13",
- Addis Ababa Administrative Council Starts with "14", and
- Dire Dawa Administrative Council starts with "15",

#### **1.4.2.2 For Detail Statistical Reports**

The format of the Statistical tables is arranged in such a way as to facilitate easy identifying and comparability at reporting levels. To achieve this, tabular reports signifying the same title are designated by the same table number but a unique code number is assigned to all of the tables within a reporting level belonging to a region (regional identification code number). In addition to that, tabular reports signifying

the same title are designated by the same table number but subscripted by 1 and 2 for rural and urban level reports, respectively. Consequently, the Urban level reports, which are subscripted by 2, are again subscripted by 1, 2, ... for Selected Urban and Other Urban centers. For instance, the tabular report "Population Estimates by Age Group, Sex and Household Size" is designated by the same table number at country level, i.e., Table 0.1. However " Table 0.1" represented Country Total," Table 0.1.1" is for Country Rural and " Table 0.1.2" is for country Urban. Similarly, the tabular report" Household Estimates by Household Size, Sex of Household Head and Household Expenditure Quintiles " is designated by the same table number (Tab 0.2) at country level, but " Table 0.2" is for country Total, "Table 0.2.1" is for country Rural and Table 0.2.2" is for country Urban.

For Regional tables the reporting level includes Selected Urban Centers and Other Urban Centers. For instance, the tabular report "Population Estimates by Age Group, Sex and Household Size " is designated by the same table number at Region, say for Tigray Region the table numbers starts with Table 1. However" Table 1.1" represented Tigray Total", Table 1.1.1" is for Tigray Rural", Table 1.1.2" is for Tigray Urban", Table 1.1.2.1" is for Tigray Mekele and " Table 1.1.2.2" is for Tigray Other Urban. Similarly, the tabular report "Household Estimates by Household Size, Sex of Household Head and Household Expenditure Quintiles " is designated by the same table number (Tab 1.2) at Tigray Region level, but " Table 1.2" is for Tigray Total, "Table 1.2.1" is for Tigray Rural, Table 1.2.2" is for Tigray Urban, Table 1.2.2.1" is for Tigray Mekele and Table 1.2.2.2" is for Tigray Other Urban.

The unique identification codes used to identify each region and country level are the same as these given for Volume II.

The table numbers, common to all reporting levels, and titles of the available tables is listed below.

1. Population Estimates by Age Group, Sex and Household Size,
2. Household Estimates by Household Size, Sex of Household Head and Household

- Expenditure Quintiles,
3. Population Estimates by Household Size, Sex and Household Expenditure Quintiles,
  4. Population Estimates by Age Group, Sex and Household Expenditure Quintiles,
  5. Population Estimates by Sex, Household Expenditure Quintiles and Relationship To Household Head,
  6. Income contributed Household Members within Last Six Months Prior to Survey Date by Sex, Household Size and Household Expenditure Quintiles,
  7. Income contributed Household Members within Last Six Months Prior to Survey Date by Sex, Household Size and Household Expenditure Quintiles,
  8. Literacy Status of Persons Age 10 years and above by Sex, and Household Expenditure Quintiles,
  9. Educational Level of Household Heads (Highest Grade Completed) by Sex and Household Expenditure Quintiles,
  10. Educational Level of Persons Age 10 years and above by Sex and Household Expenditure Quintiles,
  11. Household Heads Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, Household Size and Household Expenditure Quintiles,
  12. Persons Aged 10 years and above Engaged in Economic Activity During Last 12 Months Prior to Survey Date by Sex, Household Size and Household Expenditure Quintiles,
  13. Employed Household Heads by Sex, Employment Status and Household Expenditure Quintiles,
  14. Employed Persons by Sex, Employment Status and Household Expenditure Quintiles,
  15. Employed Household Heads by Sex, Type of Economic Activity (Industry) and Household Expenditure Quintiles,
  16. Employed Persons by Sex, Type of Economic Activity (Industry) and Household Expenditure Quintiles,
  17. Distribution (PHH,PP & %) Of Total Household Expenditure by commodity and Household Expenditure Quintiles,
  18. Distribution (PHH,PP & %) Of Total Household Expenditure by Source, of

- Expenditure and Household Expenditure Quintiles,
19. Distribution (PHH,PP & %) Of Household Expenditure in Cash by Source of Expenditure and Household Expenditure Quintiles,
  20. Distribution (PHH,PP & %) Of Household Expenditure in Kind by Source of Expenditure and Household Expenditure Quintiles,
  21. Consumption (PHH & PP) OF Food, Beverage and Tobacco Items by Household Expenditure Quintiles,
  22. Net Calorie Per Capita per Day by Source and Household Expenditure Quintiles,
  23. Gross Calorie Per Capita Per Day by Source and Household Expenditure Quintiles.

# CHAPTER 2

## SURVEY METHODOLOGY AND PROCESSING

### 2.1 Coverage

The 2004/05 HICE Sample Survey covered all rural and urban parts of the country except all zones of Gambella Region, and the non-sedentary population of three zones of Afar and six zones of Somali regions. In the rural part of the country it was planned to cover 797 enumeration areas (EAs) and 9,564 households. However, due to various reasons 3 EAs and 64 households were not covered by the survey. The overall response rate is 99.62 percent for EAs and 99.3 percent for households. For urban areas 760 EAs and 12,160 households were planned to be covered ultimately, 100 percent of EAs and 99.50 percent of households were successfully covered by the survey.

### 2.2 Concepts and Definitions

URBAN CENTER: in principle is defined as a locality with 2000 or more inhabitants. In this survey, however, for practical purposes an urban centre includes the following regardless of the number of inhabitants.

- i) All administrative capitals (Regional capitals, Zonal capitals and Wereda capitals),
- ii) Localities with Urban Dweller's Association (UDAs) not included in (i),
- iii) All localities which are not included either in (i) or (ii) above having a population of 1000 or more persons, and whose inhabitants are primarily engaged in non- agricultural activities.

URBAN DWELLER'S ASSOCIATION, UDA, (KEBELE): is the lowest administrative unit in an urban centre with its own jurisdiction. It is an association of urban dwellers (commonly known as Kebele) formed by the inhabitants, and usually constitutes a part of the urban centre.

FARMER'S ASSOCIATION (FA): is the lowest administrative unit in a settled rural area with its own jurisdiction. It is an association of rural dwellers formed by the inhabitants of a given area whose members are engaged either in agricultural and/or non-agricultural activities.

ENUMERATION AREA (EA): is a unit of land delineated for the purpose of enumeration housing units and population without omission and duplication. An EA usually consists of 150 to 200 households in rural areas and 150 to 200 housing units in urban areas. An enumeration area should be related to a UDA or an FA in one of the following ways.

- An EA may be equal to an FA if the number of the households in the FA is less than or equal to 150 – 200 in rural areas; and is equal to a UDA in urban areas if the number of housing units in the UDA is 150 – 200.
- An EA may be a part of an FA or a UDA and its delineation can not extend outside the boundary of the corresponding FA or a UDA.

COLLECTIVE QUARTER: A collective quarter is a premise (a housing unit, a building or a compound) in which a number of unrelated persons reside together, and share common facilities. Examples of collective quarters are monasteries, prisons, boarding schools, home for aged, children's homes, work camps, military barracks, etc. It is important to note that in the premises of some collective quarters, there may be private households.

HOUSEHOLD: Constitutes of a person or group of persons, irrespective of weather related or not who normally live together in the same housing unit or group of housing units and who have common cooking arrangements.

HEAD OF HOUSEHOLD: A head of a household is a person who economically supports or manages the household or for reasons of age or respect, is considered as head by members of the household or declares himself as head of a household. Head of a household could be male or female.

MEMBER OF HOUSEHOLD: Person constituting a household is called member of the household. The following are considered as members of a household:

- i) All persons who lived and ate with the household for at least six months including those who were not within the household at the time of the survey and were expected to be absent from the household for less than six months.
- ii) All guests and visitors who ate and stayed with the household for six months and more.
- iii) Housemaids, guards, baby-sitters, etc. who lived and ate with the household even for less than six months.

HOUSEHOLD SIZE: Is the total number of members of a household.

CONSUMPTION EXPENDITURE: is defined as total expenditure incurred by the household or any of its members and includes expenditure on consumption as well as non-consumption commodities. It includes consumption of own crops and own livestock and livestock products, consumption of goods and services purchased for resale or produced or processed in the household enterprise other than agriculture, imputed rent of free housing (i.e. subsidized amount only), imputed rent of owner occupied housing, and, value of items obtained free (i.e. firewood, water, etc.).

The following major groups are included in the households consumption expenditure.

- Food and Non-Alcoholic Beverages;
- Alcoholic Beverages and Tobacco;
- Clothing and Footwear;
- Housing, water and fuel and power;
- Furnishing; Household Equipment and Maintenance,
- Health;
- Transport and communications;
- Recreation, Culture and Education; and
- Miscellaneous Goods and Services, such as Personal Care and Personal effects.

*TOTAL EXPENDITURE* : In household expenditure surveys total expenditure is defined as all household consumption expenditures as well as non-consumption expenditures. That is, all expenditures listed under consumption expenditure plus other expenditures such as remittance paid, deposit, interest paid, insurance premia, loans given out, repayments of loans made, pension and other contributions, donations, fines and related legal expenses, income tax, purchase of lottery tickets and gambling expenses, 'Ikub' payments, 'Idir' contributions, operating cost of household economic enterprises, and other similar payments.

*HOUSEHOLD ENTERPRISE* : Household enterprise is an economic enterprise undertaking where goods and services are produced for sale and it also includes those engaged in buying and selling activities. An agricultural enterprise producing for own consumption (Household Consumption) only is covered by the definition. Generally, the type of enterprise considered as a household enterprise by the survey is an economic enterprise run by the household/member of a household in which its primary aim being to manage the livelihood of the household and doesn't have any distinct demarcation between its income/expenditure and the households' income/expenditure.

*INFORMAL SECTOR*: For this survey informal sector is defined as household type enterprises/establishments or activities which:-

- are mainly engaged in marketed production, and
- are not registered companies cooperatives, and
- have no full written book of accounts, and
- have less than 10 persons engaged in the activity, and
- have no licence.

Therefore, for this survey an enterprise/establishment/activity is considered informal if it meets the aforementioned five criteria. However, an agricultural enterprise/activity run by private peasant holdings in rural areas and mainly produce for own consumption (household consumption) is considered as formal sector.

PRODUCTIVE ACTIVITY: This is an act of selling (making available to the market) the out put of an activity (the whole or in part) in kind or cash: This could be working in public or privately owned enterprise on salary/wage basis. Here too, all activities that are carried out in rural areas by private peasant agricultural holders are considered to be productive.

EMPLOYER: is a person who hires at least one employee for her/his enterprise/establishment or activity. Any one who uses hired labour for her/his activity and takes part in the productive activity is also included here in this survey.

EMPLOYEE: An employee is any worker hired by some one on contract, permanent or temporary basis. The payment could be in cash or kind on weekly, bimonthly or monthly basis.

SELF EMPLOYED: This is an individual who works in his own enterprise including agriculture with out hiring any one. In this survey those who use family labour without payment are also included here.

UNPAID FAMILY WORKER: A member of a household who is working for the enterprise/establishment or activity of the household with out payment.

HOUSEHOLD EXPENDITURE QUINTILE: is dividing the households according to their expenditure level into five equal parts.

### **2.3 Sample Frame**

The list of households obtained from the 2001/2 Ethiopian Agricultural Sample Enumeration (EASE) was used as a frame to select EAs from the rural part of the country. On the other hand, the list consisting of households by EA, which was obtained from the 2004 Ethiopian Urban Economic Establishment Census, (EUEEC), was used as a frame in order to select sample enumeration areas for the urban HICE survey. A fresh list of households from each urban and rural EA was prepared at the

beginning of the survey period. This list was, thus, used as a frame in order to select households from sample EAs.

## **2.4 Sample Design**

For the purpose of the survey the country was divided into three broad categories. That is; rural, major urban center and other urban center categories.

**Category I: Rural:** - This category consists of the rural areas of eight regional states and two administrative councils (Addis Ababa and Dire Dawa) of the country, except Gambella region. Each region was considered to be a domain (Reporting Level) for which major findings of the survey are reported. This category comprises 10 reporting levels. A stratified two-stage cluster sample design was used to select samples in which the primary sampling units (PSUs) were EAs. Twelve households per sample EA were selected as a Second Stage Sampling Unit (SSU) to which the survey questionnaire were administered.

**Category II:- Major urban centers:-** In this category all regional capitals (except Gambella region) and four additional urban centers having higher population sizes as compared to other urban centers were included. Each urban center in this category was considered as a reporting level. However, each sub-city of Addis Ababa was considered to be a domain (reporting levels). Since there is a high variation in the standards of living of the residents of these urban centers (that may have a significant impact on the final results of the survey), each urban center was further stratified into the following three sub-strata.

- Sub-stratum 1:- Households having a relatively high standards of living
- Sub-stratum 2:- Households having a relatively medium standards of living and
- Sub-stratum 3:- Households having a relatively low standards of living.

The category has a total of 14 reporting levels. A stratified two-stage cluster sample design was also adopted in this instance. The primary sampling units were EAs of

each urban center. Allocation of sample EAs of a reporting level among the above mentioned strata were accomplished in proportion to the number of EAs each stratum consists of. Sixteen households from each sample EA were finally selected as a Secondary Sampling Unit (SSU).

**Category III: - Other urban centers:** - Urban centers in the country other than those under category II were grouped into this category. Excluding Gambella region a domain of “other urban centers” is formed for each region. Consequently, 7 reporting levels were formed in this category. Harari, Addis Ababa and Dire Dawa do not have urban centers other than that grouped in category II. Hence, no domain was formed for these regions under this category.

Unlike the above two categories a stratified three-stage cluster sample design was adopted to select samples from this category. The primary sampling units were urban centers and the second stage sampling units were EAs. Sixteen households from each EA were lastly selected at the third stage and the survey questionnaires administered for all of them.

## **2.5 Sample Size and Selection Scheme**

**Category I:** - Totally 797 EAs and 9,564 households were selected from this category. Sample EAs of each reporting level were selected using Probability Proportional to Size (PPS) with systematic sampling technique; size being number of households obtained from the 2001/2 Ethiopian Agricultural Sample Enumeration. From the fresh list of households prepared at the beginning of the survey 12 households per EA were systematically selected and surveyed.

**Category II:** - In this category 485 EAs and 7,760 households were selected. Sample EAs from each reporting level in this category were also selected using probability proportional to size with systematic sampling method; size being number of households obtained from the 2004 EUEEC. From the fresh list of households prepared at the beginning of the survey 16 households per EA were systematically selected and covered by the survey.

**Category III:-**127 urban centers, 275 EAs and 4,400 households were selected in this category. Urban centers from each domain and EAs from each urban center were selected using probability proportional to size with systematic sampling method; size being number of households obtained from the 2004 EUEEC. From the listing of each EA 16 households were systematically selected and the survey was carried out on the 16 ultimately selected households.

Including region rural, region urban and country domains, totally 61 reporting levels (including the 10 sub-cities of Addis Ababa) were formed. For the overall distribution of planned and covered EAs and households see Annex I.

Estimation procedures, standard errors and coefficients of variations for the estimates of selected variables are also presented in Annex II & Annex III, respectively.

## **2.6 Data Collection**

The data collection of the HICE survey in the first round and second round has taken place from 4 July to 3 August 2004 and from 4 February to 5 March 2005, respectively. A total of 3114 enumerators and 623 field supervisors with an average supervisor-enumerator ratio of one to five together with about 75 technical staff from the branch offices were involved in the field work.

In all of the selected sample units data were collected from 12 sample households from each rural sample EA and 16 households from each urban sample EA. In every EA two enumerators were assigned for the data collection in such a way that an enumerator has to collect data from six households in rural and from eight households in urban areas.

Data were collected in such a way that the six rural and eight urban households that were handled by one enumerator, were interviewed over a period of four weeks. The enumerator assigned in rural area visited two households daily and those enumerators assigned in urban EA visited two-three households daily, so that data has been collected from each sample household twice a week, i.e. for eight times during the

survey month in each round. It is believed that the frequent visits made by the enumerators to each household was essential to control errors arising from memory lapse that is common in household surveys of this nature.

In relation to the nature and type of expenditure, different reference periods were used to collect information from each household /member of household. The reference periods used for data collection of different variables are given in summary Table 2.1.

Summary Table 2.1 Reference Periods of Data Collection

Type of Data	Reference Periods
1. Population Characteristics	Beginning of Survey date
2. Food, Beverages and Tobacco	Twice weekly (3-4 days)
3. Clothing and Footwear	Last 3 & Last 6 Months
4. Housing, water, fuel & power	Conditional
▪ Water	Twice Weekly (3-4 Days)
▪ Fuel & power	Twice Weekly (3-4 Days)
▪ Other Durable Goods and Long Term Services	Last 3 & Last 6 Months
5. Furnishings, Household Equipment & Maintenance	Conditional
• Goods & Services for Routine Household Maintenance	Twice Weekly (3-4 Days)
• Other Durable Goods and Long Term Services	Last 3 & Last 6 Months
6. Health	Conditional
• Pharmaceutical Products & Drugs	Twice Weekly (3-4 Days)
• Medical Treatment and Other Health Expenses	Last 3 & Last 6 Months
7. Transport	Conditional
• Transport Service Charges	Twice Weekly (3-4 Days)
• Purchase, Operation and Other Durable Goods & Long Term Services	Last 3 & Last 6 Months
8. Communication	Conditional
• Frequent Service Charges	Twice Weekly (3-4 Days)
• Equipments, Rent and Maintenance	Last 3 & Last 6 Months
9. Recreation & Culture	Conditional
• Recreational and Cultural Services and News paper	Twice Weekly (3-4 Days)
• Equipments, Accessories & Repairs	Last 3 & Last 6 Months
10. Education	Conditional
• Educational Materials	Twice Weekly (3-4 Days)
• Educational Services	Last 3 & Last 6 Months
11. Miscellaneous Goods and Services	Conditional
• Personal Care & Financial Services	Twice Weekly (3-4 Days)
• Personal Effects (Goods) and other Durable Goods and Long Term Services	Last 3 & Last 6 Months

Both interview and objective methods of data collection were introduced to collect data from households and individuals using four modules. Interview method was used to collect information related to population characteristics, amount of expenditure, type of expenditure and source of expenditure. Objective method was used, basically, to measure consumption of food and beverages. Also, objective measurements had been used for non-industrial commodities such as fire wood, charcoal, ... etc.

Apart from the HICE survey, price survey was also conducted side by side in a near by market, that is a market located around the selected EA. The basic objectives of the price survey were to:

- furnish price data for the purpose of valuation of consumed items in the cases where value or quantity is missing during data processing operation, and
- provide price data that would be used for consistency checking activities during the data processing activities.

## **2.7 Field Supervision**

In survey of this type, regular and intensive supervision is necessary and crucial component of the whole data collection process. A regular supervision, which is also compulsory activity in the CSA surveys, has been undertaken at various levels to ensure the quality of the data. The permanent field supervisors were assigned to take care of the day-to-day supervision activities. Branch Statistical Office heads and statisticians were also involved in the regular supervision operation. Moreover, most of the professionals and sub professionals from the head office that were engaged in the training of the field staff were also deployed in the actual field supervision. A team comprised the top management has also visited the fieldwork of the survey.

## **2.8. Data Processing**

The data processing activities were undertaken at the head office. These activities included manual editing, coding, verification, and data capturing (data entry) in its first stage. Consistency checking, and data validation activities has been carried out in the

second stage, while estimation with proper sampling weights and tabulation activities were carried out in the final stage of the data processing by concerned professionals.

### **2.8.1. Data Editing, Coding and Capturing**

The first step of data processing activities was the training of 40 data editors/ coders and 20 supervisors by subject matter department staff members for the first round survey data. The data capturing (data entry) operation was carried out using about 60 computers and as many data encoders. Similarly, the data processing activities of the second round survey were undertaken by about 60 editors/coders and 25 verifiers for about 85 days. Data entry operation took about 60 days using 125 computers and as many data encoders.

### **2.8.2 Data Validation and Cleaning**

Data validation and cleaning activity was carried out by subject matter specialists and data processing programmers. The data cleaning and validity checking activities were carried out at commodity, and visit levels and has been done systematically. For this purpose various type of edit specification documents were prepared by subject matter specialists and used for the data cleaning purpose. The data cleaning and validation activities have passed through various steps, such as:

- Estimation of missing observations (either value or quantity) using the available results of the price survey that was collected at the time of the survey from a nearby market places;
- Validity and consistency of quantity and value of consumption items were checked at a visit level based on internal <sup>1</sup>and/or external <sup>2</sup> price data;
- Estimation (conversion) of consumption of own production using the observed quantities and the external price survey data;
- Comparison of the household expenditure were made on durable goods that were collected at different reference periods (3 and 6 months) in order to decide whether to utilized the 3 or 6 month's data for the analysis, and similar validation techniques have been carried out.

After completing the data cleaning and validation activities two sets of six month's estimates were separately created prior to merging the two rounds data sets. Due to the nature of the survey, the validity checking and data cleaning activity has taken a long period of time.

---

<sup>1</sup>Internal price is the value of consumption expenditure of commodities converted into price per standard unit.

1. <sup>2</sup>External price is the price of commodities generated from the price survey, that has been collected during the HICE survey in the near by market places of the selected EAs

## ANNEX II Estimation Procedures of Total, Ratio and Sampling Errors

The following formulas were used to estimate the required variables by reporting levels.

### 1. Estimate of Total $\hat{Y}_h$ in Rural Domain (Category I)

$$\hat{Y}_h = \sum_{i=1}^{n_h} \frac{M_h H_{hi}}{n_h M_{hi} h_{hi}} \sum_{j=1}^{h_{hi}} Y_{hij} = \sum_{i=1}^{n_h} \sum_{j=1}^{h_{hi}} W_{hi} Y_{hij} \text{-----} \quad (1)$$

Where,

$$W_{hi} = \frac{M_h H_{hi}}{n_h M_{hi} h_{hi}} \text{ is the basic sampling weight}$$

### 2. Estimate of Total $\hat{Y}_h$ in Major Urban Domain (Category II)

$$\hat{Y}_h = \sum_{a=1}^3 \sum_{i=1}^{n_{aih}} \sum_{j=1}^{h_{hai}} W_{hai} Y_{haij} \text{-----} \quad (2)$$

Where,

$$W_{hai} = \frac{M_{ha} H_{hai}}{n_{ha} M_{hai} h_{hai}} \text{ is the basic sampling weight}$$

### 3. Estimate of Total $\hat{Y}_h$ in Other Urban Domain (Category III)

$$\begin{aligned} \hat{Y}_h &= \sum_{i=1}^{n_h} \frac{M_h}{n_h n_{hi}} \sum_{j=1}^{n_{hi}} \frac{H_{hij}}{M_{hij} h_{hij}} \sum_{k=1}^{h_{hij}} Y_{hijk} \text{-----} \quad (3) \\ &= \sum_{i=1}^{n_h} \sum_{j=1}^{n_{hi}} \sum_{k=1}^{h_{hij}} W_{hij} Y_{hijk} \end{aligned}$$

Where,

$$W_{hij} = \frac{M_h H_{ij}}{n_h n_{hi} M_{hij} h_{hij}} \text{ is basic sampling weight}$$

The following notations were used in the formula:

- $M_h$  = Total number of households in stratum h obtained from the sampling frame.
- $M_{hi}$  = Total number of households in EA/PSU i for rural and urban domain or in urban center/PSU i for other urban domain, stratum h obtained from the sampling frame.
- $n_h$  = Number of successfully covered sample EAs for rural domain in stratum h.
- $H_{hi}$  = Total number of households obtained from the survey listing in sample EA/PSU i stratum h for rural domains.
- $h_{hi}$  = Total number of households successfully covered in EA/PSU i stratum h for rural domain.
- $M_{ha}$  = Total adjusted number of households of the domain in substrata a and stratum h obtained from the sampling frame
- $H_{hai}$  = Total number of households obtained from the survey listing in EA/PSU i of substratum a and stratum h
- $n_{ha}$  = Number of successfully covered sample EAs/PSUs for major urban domain in substratum a and stratum h
- $M_{hai}$  = Total number of households in EA/PSU i in substratum a and stratum h obtained from the sampling frame
- $h_{hai}$  = Total number of sampled and covered households in sampled EA/PSU i , substratum a and stratum h
- $\hat{Y}_{haij}$  = The observed value of characteristic y for household j, in EA/PSU i, substratum a and stratum h of Major Urban Domain
- $M_{hij}$  = Total number of households in EA/SSU j, urban centers/PSU i and stratum h obtained from the sampling frame for other urban center domain.
- $n_{hi}$  = Number of sample EAs successfully covered in urban center/PSU i and stratum h for other urban center domain.
- $H_{hij}$  = Total number of households obtained from the survey listing in EA/SSU j, urban center/PSU i and stratum h for other urban center domain
- $h_{hij}$  = Number of sample households successfully covered in EA /SSU j, urban center/PSU i and stratum h for other urban center domain.
- $Y_{hij}$  = The observed value of a characteristic y for household j in sampled EA/PSU i and stratum h for rural domain.

$Y_{hijk}$  = The observed value of a characteristic y for household k in EA/SSUj, urban center/PSU i and stratum h for other urban domain.

Note: Estimate of total at country level,  $\hat{Y}$ , is obtained by summing up stratum/domain total estimates.

$$\hat{Y} = \sum_{h=1} \hat{Y}_h$$

#### 4. Sampling Variance of the Estimates:

Sampling variance of estimate of stratum total are given by the following formulas:

The variance of domain or reporting total estimate is:

$$V(\hat{Y}_h) = \frac{n_h}{n_h - 1} \left[ \sum_{i=1}^{n_h} \hat{Y}_{hi}^2 - \frac{\hat{Y}_h^2}{n_h} \right] \text{-----} \quad (4)$$

in which  $\hat{Y}_{hi} = W_{hi} \sum_{j=1}^{h_{hi}} Y_{hij}$  for rural and major urban centers domains,

and  $\hat{Y}_{hi} = \sum_{j=1}^{n_{hi}} W_{hij} \sum_{k=1}^{h_{hij}} y_{hijk}$  for other urban center domain.

$$V(\hat{Y}) = \sum_h V(\hat{Y}_h) \text{-----} \quad (5)$$

$$SE(\hat{Y}_h) = \sqrt{Var(\hat{Y}_h)} \text{-----} \quad (6)$$

#### 5. Coefficient of Variation (CV) and Confidence Interval (CI)

The following formulas were used to calculate CV and CI of the domain (reporting level) total.

The coefficient of variation (CV) of domain total in percentage is:

$$CV(\hat{Y}_h) = \frac{\sqrt{VAR(\hat{Y}_h)}}{\hat{Y}_h} * 100 \text{-----} \quad (7)$$

and Ninety-five percent confidence interval (CI) of domain total:

$$\hat{Y}_h \pm 1.96 * SE(\hat{Y}_h) \text{-----} \quad (8)$$

**6. Ratio Estimates:**

$$\hat{R}_h = \frac{\hat{Y}_h}{\hat{X}_h} \text{ and } \hat{R} = \frac{\hat{Y}}{\hat{X}} \text{----- (9)}$$

Where the numerator and the denominator are estimates of domain totals of characteristic y and x, respectively.

$$Var(\hat{R}_h) = \frac{1}{\hat{X}_h^2} [Var(\hat{Y}_h) + \hat{R}_h^2 Var(\hat{X}_h) - 2\hat{R}_h Cov(\hat{Y}_h, \hat{X}_h)] \text{----- (10)}$$

In which

$$Cov(\hat{Y}_h, \hat{X}_h) = \frac{n_h}{n_h - 1} \left[ \sum_{i=1}^{n_h} \hat{Y}_{hi} \hat{X}_{hi} - \frac{\hat{Y}_h \hat{X}_h}{n_h} \right] \text{----- (11)}$$

Estimates of standard error, coefficient of variation and confidence interval for the ratio estimate can be calculated by adopting formulas 6, 7 and 8.
